

# How to Make a Rope Re-boarding Device

**Materials:** 3 m (11'-14') Length of Rope

---

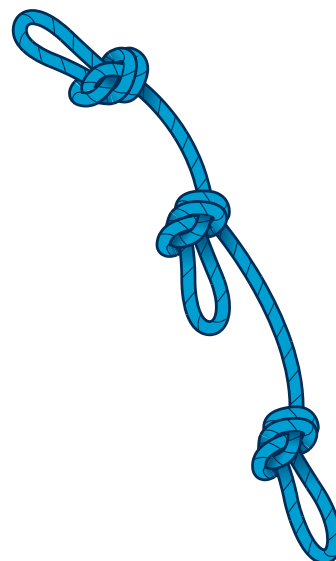

## Step 1:

Make a loop at the bottom of the rope. Ensure **the loop is big enough** for your feet to fit into them.

## Step 2:

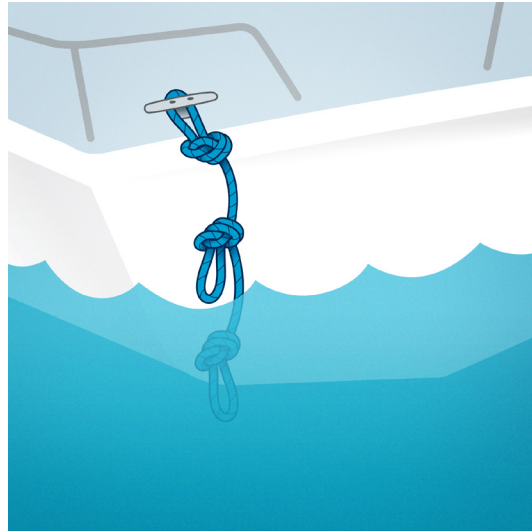

Make a second and a third loop above the first – approximately 1 foot between the loops.

# How to Make a Rope Re-boarding Device

## Step 3:

Secure the rope to the stern of your boat.

---

## Step 4:

Get into the water and test your rope ladder.
